REMARKS

Claims 1-16 and 18-19 remain in the application. Claim 17 has been canceled and claim 20 has been added. The applicant notes with appreciation that claims 2, 8, and 13 contain allowable subject matter. Claim 19 has been allowed. Claim 1 has been amended to include the subject matter limitations of claim 2 and should thereby be found to be allowable.

The applicant has amended the claims to provide for full spectrum except for ultraviolet lights, as that term is defined in the specification to include lamps in addition to neodymium lights, since there are other light sources which could be used which provide full spectrum light without substantial amounts of potentially damaging ultra violet light.

Claim 16 has been amended to add the limitation of claim 17, which was indicated to include patentable subject matter.

Claim 12 has been amended to remove the indefinite language "to imitate a breeze on a sunny beach".

Claim 18 has been amended to depend from method claim 19, which was indicated to be allowed.

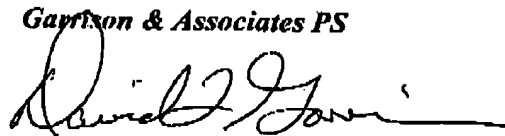

The amendments set forth above are believed to provide a basis for allowing all of the claims and to clearly distinguish over the prior art of record, in particular the Muller reference.

Application No.10/624,339
Amendment dated November 8, 2005
Reply to Office Action of August 9, 2005

It is believed that the claims, as set forth above, comply fully with the Examiner's comments and favorable action in the form of a Notice of Allowance is respectfully urged. Should the Examiner find that any matters remain for resolution, he is respectfully requested to contact the undersigned by telephone at (206) 441-3440.

Respectfully submitted,

Garrison & Associates PS
